## Summary

---

I am a full-stack web developer with 3+ years of experience building modern, scalable web applications using React.js, Next.js, Node.js, and WordPress. Proficient in developing WordPress themes and plugins, including tools like Elementor and BuddyBoss. Experienced in automating workflows and business processes using Make. Skilled in setting up CI/CD pipelines, deploying applications on AWS, and integrating APIs. Passionate about creating user-centered interfaces and delivering high-performance digital solutions that drive business growth.

## Experience

---
